FEATURES

TROUT LL

PRIMARY RECOMMENDATIONS

Model	All-Around	Technical Presentations	Description	Flies
379-4	Gold WF3F	Technical Trout WF3F	A great tool for small, brushy streams and close casts. The 379-4 is a joy to play fish on and protects light tippets incredibly well.	small caddis and attractors
389-4	Gold WF3F	Technical Trout WF3F	Best on small to medium streams but in a pinch can hold it's own on large water. It may be the ultimate tool for wading a stream while fish are actively eating micro bugs off the surface or in the film.	tricos and small mayflies
486-4	Gold WF4F	Technical Trout WF4F	The perfect tool for small stream fishing when you want the versatility to cast larger flies. The 486-4 opens up the option to cast large terrestrials while still offering accaruacy and lightweight feel that is perfect for smaller fish in smaller water.	Small to medium sized mayflies and caddis
490-4	Gold WF4F	Technical Trout WF4F	An amazing all-around tool for the angler who plans the day around a dry fly hatch but also wants to mix in some other techniques during a stale mid-day hour.	Small to medium sized mayflies and caddis
586-4	Gold WF5F	Technical Trout WF5F	The 586-4 features the versatility of a 9'0" 5wt with increased accuracy in tighter spaces. Great for the angler looking for a rod to do it all with a slight focus on smaller water.	medium sized caddis and terrrestials
590-4	Gold WF5F	Technical Trout WF5F	A 9'0" 5wt featuring a modest casting tempo and a smooth but versatile action. A versatile tool designed to cover the majority of scenarios faced by a trout angler.	medium sized mayflies, caddis, and terrestrials
690-4	Gold WF6F	Technical Trout WF6F	The 9'0" 6wt brings the smooth and easy-loading action to a six weight size. The 6wt is a versatile player and can handle anything from small flies to streamers. This 6wt takes it all in stride and offers a unique experience for the angler who wants to cast at a slower, more deliberate tempo.	Larger stonflies and terrestials
